

Kaffee und gute Gespräche

Jeden Sonntag
ab 13 Uhr im Gemeindehaus

Eine Tasse wartet auf Sie

How to make the perfect V6

- Pour hot filtered water over your filter paper to prepare

- Measure and grind your beans

1g of beans = 15ml of water

So 18g of beans = 270ml of water

-
- Add your ground coffee and pour over approximately 75ml of water
 - Leave to bloom for 30 seconds

-
- Slowly pour 2/3 of the remaining water and swirl the V60
 - Pour the rest of your water and leave to drip
